MAILING LISTS & MARKETING SOLUTIONS**

## ***E-MAIL LISTS***

Customized E-mail marketing lists are now available.

Names from our file are matched against a master database.

These matches are sent an e-mail requesting permission to send them information from you.

Those that do not opt-out are considered in, and part of your customized opt-in list.

This process ensures you receive a Can-SPAM compliant list for your company.

You pay only for the matches.

Turn-around time is usually ten business days.

Since an outside vendor is used for this process, pre-payment is required.

Contact us today for more information.
